

Elbow Cadaveric Workshop

In Association with Sanjay Gandhi Institute of Trauma and Orthopaedics,
Karnataka Orthopaedic Association & Bangalore Orthopaedic Society

Date: **22 August, 2022**

Time: **9 AM to 5 PM IST**

Venue: **Ramaiah ALC, Bangalore**

Theme: Comprehensive update about contemporary management in elbow pathologies

Course Description:

Elbow Course is the first ever comprehensive update on contemporary management of elbow issues including trauma, sports injuries, and nerve pathologies. It includes lectures, video presentations, group discussion, one to one interaction with faculty members and hands on skill application on cadavers.

Orthopaedic surgeons aspiring to excel in this specialty will have an opportunity to discuss the issues related to elbow.

Course features:

- Live and recorded surgical demonstration videos of the various surgical procedures by the International and National faculty.
- Cadaveric workshop on fresh frozen cadavers with hands-on learning of the various approaches to elbow, complex procedures of ligament reconstruction, and nerve releases.
- To learn fixation of various fractures around elbow with radial head replacement.
- Group Discussion
- Video presentations

Course Objectives:

- Discuss principles of management of common elbow pathologies
- Choose proper surgical approach
- Get acquainted with instrumentation and methods to use it.
- Discuss the prevention and management of complications.
- Analyse the literature regarding outcome of common elbow pathologies
